

**A Special Birthday
Gift to SFMS
from some of the
ex-students ...**

<http://sfmsis50yearsold.blogspot.com/>

Happy Birthday!!

Fan Chenlong Frey (4C3 2008)

I have many wonderful memories of secondary school life in SFMS. I truly appreciate teachers' kindness and patience in SFMS as they treated me as part of their family. Thus, I was able to achieve my academic goals at the O levels. My life in SFMS will always be a part of me, my life, my journey...

Thank you so much teachers and to St. Francis Methodist School.

Happy Birthday!

Thank You, SFMS!

Sarah Grace Serrano Alcaraz (4C1 2009)

“ The teachers were also very helpful to me. Whenever i asked for assistance or extra classes, they would just pull out their schedules without any hesitance =) **This is the kind of treatment which none of the other government schools would ever have.**

SFMS taught me to work hard in my studies without compromising my life as a teenager.

In essence, my experience in SFMS may be considered as the **best time of my life**. It is where I found friendship in which neither distance nor time will break, **teachers who inspired me** to work hard in everything I do and never failed to believe in my talents and abilities even if I had already given up myself. SFMS's corridors and classrooms hold my precious memories.

Thank you SFMS for making me the person that i am today

Happy Birthday!

Calista Haripin (4C1 2009)

My stay in SFMS has been one of the most memorable days of my student life. I am very thankful for the opportunity to study there. SFMS helped me to pursue my dream...

I will always remember SFMS and especially 3C1 08 because 3C1 08 students were like my family when I was in SFMS and Ms Kamali was like a mother-figure to me....

Thanks, SFMS, for everything....All the best !!!!

Congratulations!!

Khuc Doan Chau Quyen (4C1 2009)

Thankfully, St Francis gave me a home far away from home. Over there, I shared a family with people from different countries, different cultural backgrounds, using different languages yet we were strangely united and understood each other. We were gradually getting closer despite speaking with broken English and in turn, learning phrases in other languages. I shared dreams with friends who were always there for me, I befriended with teachers who refused to give up on their students, the canteen aunty who knew right away what I was about to order before I did, the security guard noticed I didn't come to school and asked me if I was fine the day after. Even the library lady gave me candies every time I went. It was then that I knew I was exactly where I was supposed to be, St Francis - where every individual matters. I feel thankful for the time spending there.

Have a wonderful celebration!

Happy Birthday!

Kit Novanata (4C3 2009)

Then came Prom-Nite where I gave the performance of my life! It was epic...The screaming support from the crowd only added fuel to my tank and I once again thank you all for the support. Of course, I will always miss this school, reason being because it was like my second family. Sure we were all different ages, different backgrounds and different pasts. However, we had one thing in common. We are humans. As social creatures it was inevitable that everyone of us would forever forge a link so monstrously strong that not even Wolverine's indestructible claw could slice it. That bond will forever last and shine to the everlasting institute that is known as St. Francis Methodist School. Thank you for such a meaningful experience.

Happy Birthday!

Congratulations, SFMS!

Li Jinde (4C1 2008)

St. Francis helped me realize my potential for Languages and this had helped me through different fields of my current career and studies since I'm now studying a very culture based course. Thank you so much St. Francis Methodist School!♥
